

### **REMARKS**

Claims 1-5, 7-10, 12, 14-27, 29, 30, 34-37 are pending. Claims 1, 3, 10, 15, 16, 20, 26, 29, and 36 are amended. Removal of the pending rejection is requested. Support for the amendment may be found throughout the specification and drawings as filed. In particular, support may be found at Page 8, line 11 through Page 9, line 2; Page 59, line 24 through Page 60, line 11; and Page 61, line 25 through Page 62 line 25.

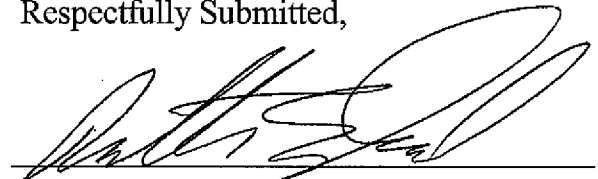

The art of record fails to teach the recited features. In particular, the Hitchcock reference does not disclose, at least, form generation as Hitchcock is directed to filling out an already existing form. For example, Hitchcock discloses a prospective college student filling out a college entrance form. In contrast, Claim 1 as amended, in part recites, "receiving an indication of a desired form to be generated for data input." Neither Hitchcock, nor any of the other references disclose at least these features. As Hitchcock does not disclose "automatically identifying one or more data input fields to be included on the desired form" but instead, discloses "filling in the form" (e.g., filling in the blanks included in the form). The remaining claims include additional features which are not disclosed in the reference of record.

The claims are believed to be in condition for allowance. Applicant respectfully requests reconsideration and prompt issuance of the present application. Should any issue remain that prevents immediate issuance of the application, the Examiner is encouraged to contact the undersigned to discuss the unresolved issue.

Respectfully Submitted,

Dated: 4.30.07
